PHILIPPINES
CYBERSECURITY SOLUTIONS
BUSINESS BRIEFING

October 9, 2018 | Washington, DC

OPPORTUNITY TO MEET WITH DECISION-MAKERS FROM THE PHILIPPINES' CYBERSECURITY SECTOR

On a visit to the United States, a group of leaders from the Philippines will learn about state-of-the-art U.S. technologies and services, as well as policies and regulations that can strengthen cybersecurity infrastructure and resilience of public sector entities in the Philippines. The visit occurs as the country prepares to implement the multi-phased Philippines National Cyber Intelligence Platform Project, with the goal of familiarizing decision-makers with U.S. solutions and industry best practices for cybersecurity.

As part of the visit, USTDA will host a half-day **Business Briefing** on **Tuesday, October 9, 2018** from **9:00 am to 1:00 pm** in Washington, D.C. One-on-one meetings with the delegates will be available. Registration is required. To save your seat, click the link below.

- Office of the President

Sponsorship opportunities are available for companies interested in increased visibility.

BACKGROUND

In the 2017 Global Cybersecurity Index, the Philippines ranked 37th among 193 members states. The Index is a key international measure of cybersecurity commitment and readiness compiled by the International Telecommunications Union. With the rise of e-commerce and growing integration of ICT and connectivity of critical infrastructure, the number of cybersecurity threats and data breaches has increased each year in the Philippines. Unsecured databases and the exposure of sensitive data remain the largest security risks for the country. The Philippine Government is working to develop and strengthen cybersecurity infrastructure and capabilities. As a global leader in the development and deployment of cybersecurity technologies, the U.S. private sector is poised to help fortify the network infrastructure in the Philippines.

Attendance at this event is limited to U.S. individuals, U.S. firms, or U.S. consultants as defined in USTDA's Nationality, Source and Origin Requirements, available on USTDA's website at www.ustda.gov.
